

Sedici. Every day is 4X4

4X4 Every day

They say that on an average day, we spend 9 hours working, 5 hours with the family, 6 hours sleeping and 2 hours on housework. In any time that's left we are apparently snoozing in front of the TV. That's what they say...

Design

Giorgio Giugiaro

Length 4.11m

Height 1.62m

Width 1.75m

But if you prefer adventure to the average, you should live life to the power of 4X4 and step into the Sedici.

Striking and tough, compact and comfortable, four wheel drive or two wheel drive on demand and environmentally friendly, Sedici is the car for hard working mums and dads that's also an all-terrain specialist.

4X4 Shopping

Everyone does their big shop on a Saturday. Why? There are about 4000 supermarkets in the UK and on Saturdays about 4 million of us cram into them and inch around the car parks.

Can we suggest you put off the shopping?

Do it on Monday instead and head for the dirt roads and lonely places and hidden views that the Sedici can take you to.

A refreshing change of scene is at your fingertips. Just press the button that automatically engages 4X4. The shops will still be there after the weekend.

City and motorway

With the switch in its 2WD position, drive is only transmitted to the front wheels, for fuel efficient everyday journeys.

Dirt tracks and wet roads

With the switch in its AUTO position, drive is normally transmitted to the front wheels, but when there is less grip the system goes 4X4, distributing power between the front and rear axles - wherever it's needed most.

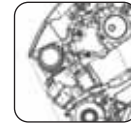

Mud, sand and snow

In the LOCK position, drive is permanently distributed '50/50' between the front and rear axles, bringing you safe and secure starts in extreme conditions. The system remains engaged until your speed reaches 37mph, at which point AUTO mode engages automatically.

4X4 Just the ticket

Amazingly, on average we spend
93.8 hours a year in queues.
That's nearly four days.

So it's nice to know that when the jam clears, Sedici moves fast and efficiently.

Choose between a 120bhp MultiJet diesel engine with ultra-low fuel consumption, strong performance, real long journey refinement and a diesel particulate filter to cut emissions, or the punchy, smooth 1.6 16v 107bhp petrol engine. Make the most of those remaining 361 days!

4X4 Comfortably protected

Travel safe in the knowledge that Sedici wraps the whole family in the latest safety technology and engineering.

Automatic 4X4 delivers optimum grip on any surface in all conditions. The high-strength steel bodyshell features progressive deformation to absorb the energy of an impact. Sedici also features height adjustable, three point seat belts with pretensioners, ABS with EBD, Isofix child seat attachments and up to six airbags.

4X4 Made to measure

The vast majority of people choose 'off the peg' outfits, so individual tailoring stands out a mile.

The complete range of Fiat Accessories is available from your local dealer.

The difference between a car and your car.

There are many accessories to choose from for your Sedici, all designed and engineered with the same care that we put into the car.

The range gives you plenty of opportunity to add personal flair, extra 4X4 credibility and luxury to your car – your Sedici can be as smart, casual or comfortable as you!

4X4 Food for thought

An average lunch break lasts 30 minutes. Usually that means a sandwich eaten standing up or hunched over a computer. It's not much fun, but there are places where you can really relax during the day. Like the Sedici.

Take it easy in the comfort zone.

Comfortable, flexible reclining seats can swiftly be folded to reveal a huge luggage area. The dashboard ergonomics put everything important at your fingertips, while the whole cabin is bright and airy and climate control always brings you the ideal temperature. So whether you're taking a break, touring or off-roading, take it easy in the 4X4 comfort zone.

The image shows the rear passenger area of a car. There are three seats visible, upholstered in a dark grey fabric with a fine, grid-like texture. The seats are arranged in a 2+1 configuration. The middle seat is split, with a vertical crease down the center. A white line from the text points to this crease. The headrests are black and appear to be made of a different material, possibly leather or a smooth fabric. The overall lighting is bright and even, highlighting the textures of the materials.

4X4 Weighed-up beautifully

Statistically, silver cars outweigh Live Blue or Indie Green ones, but why should statistics affect your choice?

Don't do dull!

According to our meticulous research, 0% of journeys are dull in the Sedici. That's partly because you can choose from a brilliant range of original body colours and matching interior trims. If you don't do dull, look at these beautifully weighed-up choices.
